

Require pull request reviews before merging

When enabled, all commits must be made to a non-protected branch and submitted via a pull request with the required number of approving reviews and no changes requested before it can be merged into **master**.

Required approving reviews: 1 ▼

Dismiss stale pull request approvals when new commits are pushed

New reviewable commits pushed to a branch will dismiss pull request review approvals.

Require review from Code Owners

Require an approved review in pull requests including files with a designated code owner.
